

Competition Team Attendance Policy

Sunday Team Training Sessions

Sunday team training sessions will take place on Sundays, either from 11:00am-12:00pm or from 12:00pm-2:00pm depending on which team I am on.

In joining the team, students and parents understand and agree that attendance is expected at all team training sessions, and that excessive absences may have a negative affect on my ability to compete, or to remain on the team.

I understand the expectation about Sunday Team Training session attendance.

Team Training Camps

Team Training Camps will occur twice throughout the year — students are required to attend at least one, but are encouraged to attend both.

Winter Training Camp will be held on February 23rd (the end of the Presidents' Week Break) from 10:00am to 4:00pm. Students unable to attend the Winter Training Camp who wish to compete at the New York International Open and/or the Junior International Cup & US Open in April should make plans to train privately with Sensei Ben before those events.

Additionally, if students qualify for and wish to attend US Nationals in July, they will be required to attend the Nationals Training Camp.

I understand the expectation about team training camp attendance.

Tournament Participation

Because this program is geared toward tournament competition, it is expected that students will make plans to compete at most tournaments that the team attends.

Registration information will be made available to parents for each event as soon as it has been published.

I understand the expectation about tournament participation.
